Language English

The programme for the Global NCD Alliance Forum 2015 was constructed to align with the priorities of national and regional NCD Alliances from around the world, and to foster dialogue and exchange between participants.

Plenary sessions focused on universal topics, from the future of the global NCD response, to building civil society momentum, to accountability as a force for change.

Workshops offered the opportunity for Alliances working through similar issues and with shared experiences to be equipped with specific knowledge tailored to their contexts and to share best practice. The afternoon of the final day of the Forum featured a global and regional advocacy planning roundtable session, drawing together areas addressed throughout the conference.
